Citizens should remember that a little planning can prevent unnecessary panic and confusion if a severe storm or tornado does strike. Citizens should learn the warning signals used for their community and put together an emergency storm kit that includes candles, matches, a transistor radio, flashlight and simple first aid kit.

During the months of April-September, the Sioux County Communications Center will also begin our testing program on the first Friday of the month at 9:30AM.

“PS” is Project Share – a program that assists needy households in paying their winter energy bills. You can help by adding a **Project Share** contribution to your utility payment, or by making a direct donation. A local social service agency carefully identifies those residents who qualify, and a local committee oversees Project Share to guarantee that all contributions are handled equitably and efficiently.
